DEATH TOLL IN FILM STUDIO DISASTER REACHES 10

EXECUTION SET FOR MARCH

LAMAR, Colo., Dec. 10.—(UP)—Ralph Fleagle, gray-haired leader of the Fleagle bandit pack, late today was sentenced to be hanged for the murder of President A. N. Parrish of the First National bank here, in a bank hold-up in May, 1928.

Motion for a new trial for Fleagle was overruled by Judge A. F. Hollenbeck, in district court here. The judge set the execution for the state penitentiary at Canon City some time during the week of March 23 next.

Through his attorney, Judge W. L. Cunningham, Fleagle had attacked the death verdict brought in by the Prowers county jury which tried him several weeks ago. Fleagle had pleaded guilty to the charge of murder after an alleged "bargain" with the prosecution in an effort to escape the gallows. He claimed the state had "promised" him the death sentence would not be imposed.

Agreement Disregarded
The jury which tried Fleagle disregarded the alleged agreement. (Continued on Page Eight)

DRIVER WRECKS HOUSE, JAIL

All because a car driven by Briley F. Baker, 21, of 296 Jayne avenue, Oakland, engaged in rear-end collision with the house of Henry A. Morse, 1115 Terrace Drive, El Cerrito, lives of the two Morse children were endangered.

Mrs. Morse suffered an injured back and an El Cerrito city jail cell became a shambles.

It was at an early hour yesterday morning that Baker, in turning his car at the top of Terrace Drive, lost control of the vehicle as it rolled backwards over the front lawn of the Morse home and crashed into the house. Awakened by the impact and the frightened cries of Richard, 9, and Francis, 4, who were asleep in a front bedroom, their parents rushed to them.

It was then, according to Mrs. Morse, that her foot slipped on the hardwood floor and her back was injured. It is her assertion that young Baker was inclined to be belligerent, although his young woman companion endeavored to mollify him.

Morse telephoned for the police and Officer Floyd Gilbert responded to call Baker on a reckless driving charge. During the several hours that he spent in the cell before being released on his own recognizance, Baker, checked by Police Chief Ray E. Cheek to have wrecked the jail cell furnishings.

Donohue is connected with the federal prohibition department at Oklahoma City. Physicians said after a preliminary examination that he had a chance for recovery. Young and his wife are being held on a murder charge.

Fishermen End Dispute Over Price Of Bass

MARTINEZ, Dec. 10.—After remaining idle for two weeks, more than 100 Pittsburg fishermen returned to their boats today, following the signing of a pact with San Francisco purchasers.

The men have lain idle because of a disagreement with purchasers over the price of bass. With the signing of the pact by I. N. Hylen, secretary of the Sacramento River Fishermen's union, the men will receive 12 1/2 cents per pound for bass. Subsequent prices will be fixed weekly on the basis of supply and demand.

Buyers cut the prices from 16 cents to 8 cents immediately after Thanksgiving day, and fishermen, refusing acceptance, tied up their boats.

Hylen also announced that according to an agreement reached with buyers, spring salmon will pay 22 cents a pound, fall salmon 5 cents, and dog salmon 5 cents.

PROBE OPENS IN MYSTERY BLAZE

NEW YORK, Dec. 10.—(UP)—Four little girls died a horrible death today just as they were within some 10 minutes of attaining the dream of every chorus girl—the dream of appearing in the movies.

With them died six men who had come with them to the Pathe sound film studios here to play for their dancing or to grind the cameras for another Pathe production.

In a few ticks of the clock and the film was turned, however, from gay comedy to probably the most tragic disaster in the history of American motion picture production.

DEATH TOLL IN EUROPE STORM 166

LONDON, Dec. 10.—(UP)—The worst storm series in a century abated somewhat today, leaving floods throughout the British Isles and western and a death toll of at least 166 on land and sea.

Isolated S. O. S. calls continued to arrive and preparations were made to search for small unreported fishing craft which might have survived the battering of mountainous waves with crews still alive. The French weather bureau predicted the tempests would renew and last two or three days more along the Atlantic coast.

The death list, still incomplete, Great Britain 56; France 88; Spain 25; Netherlands 15; Portugal 4; Denmark 3; Germany 3; Belgium 2.

Italian steamers in French waters suffered most heavily in the final day of gales. The tramp steamer Gasconne arrived at La Rochelle with six of the crew of the Italian cargo ship Afric, which sank off the coast. Thirty men were reported to have gone down with the Afric.

Injures Man, Then Saves His Life

Hubert J. Dehn, 1021 Solano avenue, Albany, a city employee of Albany, last night severely injured a pedestrian and then saved him from death from beneath the wheels of a speeding Southern Pacific electric train.

Police reported that Dehn's car struck and injured H. H. Burnside, 43, of 2071 Virginia street, Berkeley. The force of the collision threw Burnside upon the tracks of the Ninth Street electric train line.

Engineer Stanley Woods saw Burnside lying on the rails in front of his train and applied the brakes but knew he could not stop in time.

But Dehn had stopped his car, leaped out and ran to the tracks and dragged the injured man to safety, just as the train rushed by.

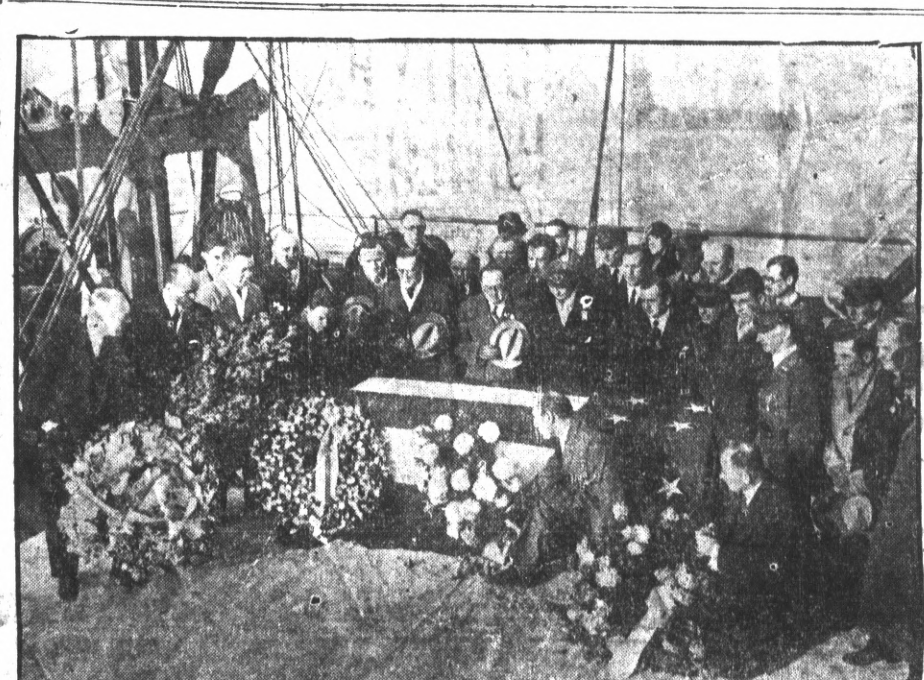

Burnside was treated at the Humboldt hospital for a badly injured right leg and cut scalp.

HANDFUL OF STRIKERS TIE UP 4 MINES

TAYLORVILLE, Ill., Dec. 10.—(UP)—One of the strangest labor strikes in the history of American mining turned this prosperous coal village tonight into a military post, bustling with machine guns and rifles.

When the National Miners' union, which the United Mine Workers of America calls a Communist organization, went on strike at four Peabody coal company mines here Monday, no one paid much attention and most of the workers continued to dig for coal.

But the Nationalists made up enthusiasm what they lacked in numbers and soon were picketing the mines. Minor violence, such as the ditching of automobiles and fist fights, was reported.

Troops Called
So 600 National Guardsmen, armed with machine guns, deployed about the town and concentrated particularly at the mines. (Continued on Page 8)

98 FREED IN HAITI RIOTS

PORT AU PRINCE, Haiti, Dec. 10.—(UP)—Scenes of rejoicing were caused here tonight by the release at nightfall of 98 military prisoners, including 26 arrested in street demonstrations precipitating the martial law edict of last Wednesday.

Receipt of word that the airplane carrier Wright, carrying 492 marine reinforcements had been diverted to Guantanamo Bay, Cuba, to await orders instead of proceeding directly here from Hampton Roads, Va., further eased the tension.

Only a handful of military prisoners remained in jail. Businessmen and townspeople, sick and tired of martial law, insisted the situation was quiet throughout the republic and halted the prospects of lifting the martial restrictions.

Although constabulary patrols in the interior reported signs of discontent, the fact that Friday's fatal clash between Marines and natives at Aux Cayes caused no hostile reaction encouraged officials. Lawyers continued to refrain from practice as a protest against martial law.

Opponents of Borno said today that the people of Haiti would peacefully accept the result of a marine supervised election such as was held in Santo Domingo four years ago and more recently in Nicaragua.

Senators and deputies should be chosen for a two year term in such an election and should, in turn, name a president to succeed Borno in April, they said.

J. PLUVIUS MAKING UP LOST TIME

SAN FRANCISCO, Dec. 10.—(UP)—Steadily increasing in volume, the rain storm that has broken a drought of more than five months in central California was quickly catching up with the normal seasonal precipitation for the region tonight.

The usual discomforts and inconveniences of such a storm brought exceptionally few complaints and predictions that rain would continue through Wednesday were noted.

From 5 a. m. until 3 p. m. today there was 38 of an inch of rain recorded by the United States Weather Bureau here. This brought the total for the storm to 1.31 inches while normal for the season to this date is 5.38 inches.

Dry lands rapidly absorbed the long awaited moisture and growth of all crops could be noted.

Farmers and ranchers acclaimed the rain as worth thousands of dollars to them. Dwellers of cities greeted it as a cure for epidemics of throat diseases.

Window washers prepared for heavy business. Planes of glass had been covered by dust and the rain drops clouded them. Merchants for umbrellas and rain coats found supplies that had been scorned much later than usual in sudden demand.

The heavy showers were general over the state. In many places they had been accompanied by winds of gale force but these were dying down. Snow blanketed the mountains, source of reserve water supplies.

Campbell Death Held Suicide

That John Campbell, 50 met his death from poisoning, taken with suicidal intent, was the verdict of a coroner's jury here last night. Campbell was found dying in his car parked at Fifteenth street and Nevins avenue several days ago. He died at a local hospital a few minutes later.

He was the husband of Mrs. Elizabeth Campbell, owner of the Richmond Commercial school.

Campbell had been ill for several years.

FORCES SENT TO CITY BY POWERS

(By United Press)
American, British, Japanese and French forces centered prosecution efforts at the industrial port of Shanghai today as revolts in four widely separated sectors threatened the Chinese Nationalist regime.

The four countries took no chances of leaving their nationals unprotected, although President Chiang Kai-Shek declared he would be victorious and the general tension was reported easing.

Admiral Charles McVay, Jr., the head of the United States Asiatic fleet, was aboard the cruiser Pittsburgh enroute from Manila to Shanghai, whither most of the Americans at Nanking had fled. Preceding the Pittsburgh were six destroyers of the 39th American division—the McCormick, Bulmer, Simpson, Macleish, Ersell and Parrott.

British Send Troops
The British aircraft carrier Hermes was bearing 500 soldiers from Hong Kong to Shanghai.

An additional Japanese cruiser was enroute to the trouble center. Authorities of the French concession in Shanghai erected barbed wire barricades at entrances mutinous armies north and south fronting on Chinese territory as a precautionary measure. Two years ago similar Japanese troops enjoyed.

POWERS SEND TROOPS TO CHINA

(Continued from page one)

by troops, held off several Chinese mob attacks.

Capitol Quiet

The situation as reported by United Press correspondents in China, could be summarized as follows: Nanking, the Chinese capital was quiet, but foreigners there, remembering their bombardment of So-

many Hill two years ago when Nationalist troops advanced, were evacuating in large numbers.

Chiang Kai-Shek denied he would resign. He ordered Nationalist troops in the vicinity, however, to concentrate in Nanking to prevent any possible siege by the city. Two reinforcing divisions arrived today.

Several hundred miles to the northwest, near Singyang, the rebel general Tang Sheng-Chi had 25,000 troops ready for a southward march on Hankow, from which government troops had been withdrawn.

Rebels Retreat

Still further west, at Ichang, warfare was raging, with rebels reported in retreat.

The foregoing trouble centers practically all on the Yangtze river, up which foreign gunboats can ply. Numerous foreign nationals have boarded ships to float eastward down the crooked river to Hankow and Nanking to Shanghai.

Besides the clashes, actual and potential, at Ichang, Hankow and Nanking, President Chang Kai-Shek is confronted with the possibility of losing Canton, metropolis of the south, to dissatisfied troops from Hupeh, led by Chang Fui-Kwei, and disloyal Kwan-Si forces.

Heavy fighting was reported today along the three rivers which convene at Canton. All automobiles were requisitioned and sent to the front.

COLMAN HIT IN DRUMMOND CHARACTER

Ronald Colman came into his own last night as the hero of a dashing comedy melodrama at the Fox-California theater in a creepy spine-curdling picture of the famous "Bulldog Drummond."

The handsome Samuel Goldwyn star whose serious love-making has made him a national figure has lost none of his sense of romantic appeal; but to it he has added a genuine feeling for comedy which results in there being just the right mixture of thrills and laughter in the picture.

The movie public has learned to expect that Samuel Goldwyn will produce pictures mounted beautifully down to the last detail. But "Bulldog Drummond" goes the past Goldwyn productions one better in making the settings as important a part of the picture as the plot. Brooding shadows, weird camera angles, sinister shots to walls and staircases, lighting that makes faces eerie, all add tremendously to the horror of the devilry of the criminals who specialize in torturing their victims under cover of a fake sanitarium.

From its great success, both in book form and on the stage, many people may already know the story of the demoralized officer who gets so lured with "after the war" quiet that he writes a letter to the London Times offering his services in any kind of half-raising adventures as long as it is dangerous. This business like procedure immediately involves him in the troubles of a beautiful girl whose uncle is being tortured by a gang of criminals headed by two men and a woman. There is plenty of hand-to-hand fighting and gunplay, but it is by outguessing his antagonists that Drummond finally breaks up the criminals' nest in the fake sanitarium and wins the girl.

Also on the program is a talking comedy "Hofter Than Hot" with Harry Langdon.

Sleepy eyes

...the cause IS poor lighting

HAVE you ever heard a child say, in the early evening, "I'm sleepy, Mother, I'll do this home-work tomorrow morning."

That may be a sign of eye-strain. Caused by poor lighting. Oculists know how true this is.

It means a child is slipping instead of forging ahead. The tragedy occurs when a child goes on neglecting studies because of the fact that poor lighting makes him sleepy early.

And why should any young person lose their chance in life when good lighting in the living-room costs but 1 1/2¢ an hour!

Would you like to know about proper home lighting? The P G and E's lighting specialists will gladly advise you.

A booklet on correct home lighting

As a tribute to Thomas Alva Edison, inventor of the electric lamp, we have prepared a booklet

called "The Romantic Evolution of Light," which has 27 beautiful full-page pictures, 8 by 11 inches. The pictures show the ancient people, in their quaint dress, using the lamps of Babylonia,

of Rome, and lamps that were handed down through the dark ages. The booklet traces the development of today's lighting and shows the revolutionary discoveries, during the last few years, of correct home lighting.

If you like we'll send a copy of this 32 page booklet to you, without cost or obligation.

CHRISTIAN FIVE WINS FAST CONTEST

The strong First Christian cage squad fought to a 14 to 10 victory over the First Presbyterians in the A division contest of the church league basketball card last night. St. Edmund's lost by forfeit to the Grace Lutherans in the B division. The Lutherans then lost to a pickup team by a score of 25 to 24.

The Presbyterian-Christian contest was unusually scanty in bucket shooting, for both squads maintained an impenetrable defense.

The St. Edmund squad seems to be pretty well disorganized, for it has lost almost half of its games by forfeit. The Lutherans staged a hard battle against a first-class pickup team, but were baffled in the last quarter by the fast passwork of the pickup athletes.

The First Methodists and the First Baptists will meet in the A division game on Friday night's card at 8:15 o'clock. The Community Methodists will clash with the San Pablo Baptists of the B division at 7:15 o'clock.

WEST POINT, N. Y., Dec. 10.—(UP)—Two army eleven, the variety and reserve teams, faced the Stanford attack today in a lengthy scrimmage session. Carrihan Missing

Carrihan, 1928 manager of the Boston Red Sox, was among the missing managers which was taken to mean that he will not lead the Red Sox next season. His final decision, however, is not expected until next week.

Both leagues elected their 1929 board of directors. Frank Navin of Detroit was re-elected vice-president of the American league.

The National league broke all home run records last season with 755, an increase of 145 in 1928. President Heydler's report showed.

The official paid attendance last season was 4,925,716, the second best the National league has ever had, falling short of 1927 only a trifle.

Neither league discussed the broadening of games, but this matter is expected to come up before the joint meeting Thursday.

Woman Wounded In Gun Battle

SEMINOLE, Okla., Dec. 10.—(UP)—A wealthy Indian woman, Mrs. Jimmie Walker, held off three officers at her home near here today, firing three volleys at them from pistols held in each hand before the fire was returned and she fell critically wounded.

Deputy sheriff Carl Harrison and his two assistants were uninjured. They carried a search warrant, having heard that stolen goods was concealed in the woman's house. The Indian woman said she believed them to be robbers.

Authorities said no charge would be filed against the officers. They wounded Mrs. Walker several times and physicians said she probably would die. It had not been determined whether reports that the woman was concealing stolen property were true.

San Pablo Man Fined \$100 On Game Law Charge

SAN FRANCISCO, Dec. 10.—The attempt of the state of California through the division of fish and game to stock suitable areas with pheasants will not be thwarted by hunters who feel the urge to go out and shoot these birds while they are protected by Deputy George Smalley of the division keeps up his good work.

This fact is revealed by the arrest of Melvin J. Marcyes of San Pablo who was taken into custody on the Upper Jones Tract in San Joaquin county with one cock pheasant which he admitted shooting.

Taken in the court of Judge S. S. McLain at Tracy, Marcyes pleaded guilty and was fined \$100. As the fine was guaranteed by a large corporation's manager at Tracy, the defendant was given a few days time to pay the bill for his eagerness to "rush the pheasant season."

It is only through complete protection of these birds that they will be developed in this state to the point where they will furnish fine sport, and arrests and fines will surely help," E. L. Macaulay, Chief of Patrol said upon reading the report.

The field in the directors' cup tournament at the Carquinez golf club has narrowed down to six players as the result of matches played Sunday at the local links.

O. R. Maller defeated Frank Gordon one up; Bill Carlton defeated J. E. Durand, one up at the nineteenth hole; C. A. Altman defeated C. L. Gribble, four and three; L. K. Carro' won from A. W. Poulsen by default; H. Claido defeated J. W. Dunlap, four and three and H. Sandner defeated Clinton Smith, two and one.

Matches for next Sunday's games have been arranged by A. A. Altman, director of the tournament, as follows:

Maller vs. Carlton; Altman vs. Carro'; Ceviatto vs. Sandner.

HIGH QUINTET DEFEATED BY UNIVERSITY

Although showing an especially fast brand of basketball, the Richmond Union high school varsity cagers lost to the University High school squad of Oakland by a score of 29 to 26 last night at the local high school gymnasium.

The Richmondites last night played what was probably their best game of the season. They were in the lead several times during the contest, and the score was tied 20 to 20 at the end of the third quarter. The score remained close until the last minute, when a final rush by the Oaklanders snatched victory away from Richmond Union high school squad. Marcos was high pointer for the locals, gaining a total of 11 points. Hadley made the most points for the University squad, with 10 points to his credit.

Last night's game was the last contest in which the local cagers will compete before they enter the Alameda County Athletic league in January. The Richmond athletes are confident that they will be able to be near the top rank of the league for they have maintained a consistent record during their independent competition.

The meeting will be held in the Scottish Rites temple at Van Ness and Sutter avenues at eight o'clock.

DOCTOR SAYS MCCORMICK WORSE

SANTA BARBARA, Dec. 10.—(UP)—Increased erraticism rather than improvement has been shown by Stanley McCormick during the last year, physicians testified today at the hearing into the guardianship of the multimillionaire.

The witness was Dr. George Rock, called on behalf of the patient's wife, Mrs. Katherine McCormick. She seeks to oust her husband's brother and sister, Harold McCormick and Mrs. Anita McCormick Blaine, as co-guardians with her so that she may remove the present medical staff.

"I visited Mr. McCormick at his River Rock home three times during this last year," the Los Angeles psychiatrist testified. "I did so at the request of Dr. Nathaniel Rock, the resident physician. On each occasion Mr. McCormick presented a different side of his character."

"Rather than improving he appears to be more erratic than formerly. When I visited him in November, he took at least five minutes to remove his shirt while preparing for a physical examination. The efforts of the patient to undress himself were accompanied by signs of great physical and mental strain."

According to the Cedar Rapids story, Baker was getting only his food but the same story refers to the fact that Marek supposedly got \$200 per month while at Ohio State.

Tug Wilson, athletic director at Northwestern, referred to the charges as "old stuff," "the story about Baker has been investigated long ago," he said, "and Frank W. aren't worried." Ohio State officials expressed the same sentiment regarding Marek.

Harry Wills To Meet Castano

NEW YORK, Dec. 10.—(UP)—Harry Wills, negro heavyweight, once a real title contender and now just something else, returns to the fighting ring Wednesday night. He will meet Andre Castano, Mexican heavyweight, at the New York coliseum in a 10-round fight.

PORTSMOUTH, N. H.—Dec. 10.—(UP)—Six fishermen escaped in a lifeboat today when a two-master auxiliary schooner bound for Boston caught fire and burned to the water line ten miles east-southeast of the Isles of Shoals.

Shortly after taking to their dory, the members of the Julia's crew were picked up by the flounder-dragger, Antonina, also of Boston, and tonight were en route to either Gloucester, Mass., or Boston.

The Julia, ravaged by fire that started apparently in its engine room, will be a total loss, coast guards reported.

IOWA FOOTBALL FANS SCORE BIG 10

CHICAGO, Dec. 10.—(UP)—Despite refusal of Iowa University officials to indulge in any "counter moves" regarding the "ouster" by the Western conference, the Iowa supporters seem disposed to find out "what is going on" at other schools.

Today there was printed a story which purported to involve players of Northwestern and Ohio State in so-called proselytizing activities.

The story came from Cedar Rapids, Iowa, and was given out over the signatures of four supposed Iowa fans. Promptly there came denials from the universities concerned and from Major John L. Griffith, athletic commissioner of the Western conference.

Supposedly, Frank Baker of Northwestern and Elmer Marek of Ohio State were concerned with the receiving of funds which helped them through school, reports stated.

with the state and fixed Fleagle's penalty at death.

In the motion which Judge Holbrook overruled today, Judge Cunningham attacked the trial court's ruling admitting evidence of murders in Kansas of Dr. W. W. Wininger and E. A. Kesinger, bank cashier, who were slain by the Fleagle gang shortly after the slaying of the bank president.

Dr. Wininger was slain by the gang after he had ministered to one of its members, wounded in the fighting during the raid on the Lamar bank. Kesinger, kidnapped from the bank as a hostage by the bandits, also was shot to death and his body thrown from an automobile while the robbers were making their escape after the raid.

Two Pals To Hang

Two accomplices of Ralph Fleagle, Howard Royston and Roy J. Absher, also were tried and sentenced to death for the Lamar slaying.

President Parrish of the Lamar First National bank, and his son, A. N. Parrish, Jr., were shot to death when they tried to "shoot it out" with the bank bandits. The state elected to try the gang for the murder of President Parrish. A fourth member of the Fleagle gang, Jake Fleagle Jr., is still at liberty.

Two Admit Guilt On Check Counts

MARTINEZ, Dec. 10.—Cecil S. Bouquet and Leo H. Redden, both of Richmond, today pleaded guilty to bad check charges before Superior Judge H. V. Alvarado.

Bouquet asked for probation on a charge involving forgery of two checks taken from the Standard Oil wharf at Richmond, and the hearing was set for Dec. 24.

Redden, who was trapped by E. W. Dale, secretary of the Richmond Elks Lodge, will be sentenced Thursday. He admitted a previous conviction.

Alpha Masons To Install Officers

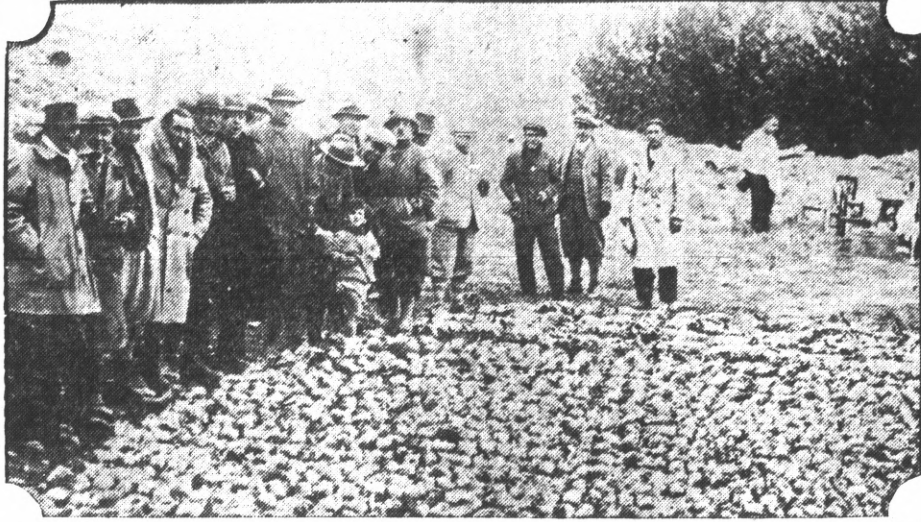

Final plans for installation of officers next Tuesday night were made at a meeting of the Alpha Masonic lodge last night. E. C. Lambrecht will become worshipful master at the ceremony. John McGrath is the retiring master.

The installation will be preceded by a 6:30 dinner for the members, and a large gathering is expected.

At the meeting last night, the first degree was conferred by Lambrecht; one degree was conferred by Homer Patterson, junior warden, and one by John W. Lee, senior deacon.

McGrath, retiring from office next week, supervised the ceremonies.

10 KILLED IN MYSTERY BLAZE, PROBE STARTED

(Continued from Page 1)

Soon the girls from the dressing room had joined the fight and were fighting, somewhat blindly for their very lives.

On the second floor Joseph E. Ryan, vice president, was dictating to his secretary. He saw smoke, and looked out to see flames fairly reaching up for him. With his secretary, he climbed from a window to a stone ledge 35 feet above the street where 15 minutes later, firemen rescued him, his secretary and Leonard Malone with extension ladders.

Girls Flee

A stage hand grabbed a fire extinguisher and turned it towards the great black velvet backdrop from around the edges of which flames were licking out towards the fluffly hands of ruffes and feathers which made up the ballet girls' costumes. The girls screamed and drew away. The big curtain belled out as if reaching for them. Then there was a puff which shook the place and flames enveloped curtain and much of the stage.

The chorines fled in terror. Camera-men, their cameras already set up, seized their costly machines and ran. Studio hands tried to stop the flames. In a moment there was confusion, screaming and shouting everywhere.

Upstairs the second chorus was awaiting its call to the stage.

Fought For Life

Bernard Mahoney burst into the room.

"Step out girls," he cried, "and make it lively. Get right busy."

They moved slowly towards the door, but when the first girl saw her sisters in wild flight for the exits, she screamed the alarm.

Ruins Searched

Gathered in the street were the 25 to 30 girls who had escaped unhurt. They had left their clothes.

Protect Your Furniture

A \$1.25 to Rid Your Home of Moths May Save You Hundreds of Dollars.

MORTEMOTH KILLS MOTHS

The gas from Mortemoth crystals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and their dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to tie them in small sacks, and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushions, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again.

Handful Of Miners Tie Up 4 Mines

(Continued from page one)

When more than 1000 regularly affiliated union miners reported for work today, they saw the troops guarding the mine property and refused to enter the shafts. They said they were not striking, but that union principles forbade them to work under the protection of soldiers.

The handful of Nationalists, under the fiery leadership of Freeman Thompson, thus achieved a virtual tieup of mining activity in all the Peabody properties here.

The strike had not spread to other rich mines throughout the central and southern part of the state and 11 Peabody shafts further south were operating as usual.

The general strike called by the Nationalists was caused by their demand for a six hour day, a five day week, a minimum weekly wage of \$35, abolition of the checkoff system and equal rights for negro miners.

The whole strike, said Harry L. F. Schwick, Springfield, Ill., president of the Illinois Miner's union, "is just a lot of noise by Communists and will be over in 72 hours."

"Once the Communists have talked themselves out—and that will be very soon—all will be quiet and peaceful. There will be no cut in the supply of coal."

Are YOU Getting YOUR MONEY'S WORTH In Entertainment?

The American people pay more generously for entertainment than any nation on earth. Their generosity has enriched the motion picture industry.

Spoken dialog has come to replace the subtitle of the silent picture. Tagging along with the talkie comes Mechanical Music—an economy.

Real Music is being ordered out of many theatres in favor of this new comer, who never dared a theatrical appearance until he gained the protection of the Talking Picture's novelty and the magic word "Synchronized."

Now synchronization with a picture does not give Mechanical Music the quality of Real Music.

Banishment of Living Music represents a loss for the theatre patron. Is this loss balanced by the substitution of Mechanical Music?

A very great many theatre-goers will answer:

"NO!"

Then why should the aforementioned American people, who pay so generously for entertainment, be required to take less for their money than they were wont to get?

which covered itself with glory by rescue after rescue, was reported today to have reached Brest Wednesday night if another tug could arrive and give assistance.

The Leonardo Da Vinci was bearing \$70,000,000 worth of famous art masterpieces for exhibition here.

The 637-ton Swedish steamer Frieda was towed into Dover harbor, with all its crew safe except the captain, who was washed overboard.

The British steamer Hallmoor, stranded in the North Sea, was pulled off by a salvage steamer and was awaiting the harbor.

Lifeboats To Aid

A French lifeboat was sent to assist the Italian steamer Sennatore D'Al. A Blythe lifeboat went to help an unidentified fishing vessel in distress off North Cornuberland. Sixty fishermen aboard six trawlers of the Yarmouth and Lowestoft fleets were reported still missing, and the British would overflow their banks.

County Collects Million In Month

MARTINEZ, Dec. 10.—According to a report by M. W. Foost, tax collector, \$1,100,000 was collected by his office in tax payments during the month of November. The final report on the first installment payments, will not be ready for several weeks.

cruiser Sutton started to search for them.

Air service between England and France resumed today, but numerous ships still remained in refuge at Cherbourg, Calais, Dunkirk, Buloane and Saint Nazaire, France.

The River Thames, London's trade artery, overflowed its banks in many places, forming series of lakes submerging thousands of acres of grazing land. Scores of riverside homes were abandoned. At least 400 villagers living on the fringe of the Somerset Moors hurriedly evacuated their homes because of rising waters.

Many roads in southern Britain were covered with two to four feet of water, stalling motor cars. In France the Marne and Seine rivers were swollen but there was little immediate danger they would overflow their banks.
